NullLB shouldn't wait for LB period

08/02/2017 11:27 AM - Sam White

Status: Implemented
Priority: Normal
Assignee: Kavitha Chandrasekar
Category: Load Balancing
Target version: 6.9.0

Estimated time: 0.00 hour
Spent time: 0.00 hour

Description
Currently NullLB respects the LBPeriod. This means that if your application is calling AtSync more frequently than the LBPeriod, you get long delays in some of those calls even if you aren't running with a real load balancer.

History
#1 - 08/04/2017 01:44 PM - Kavitha Chandrasekar
Discussed this issue, Juan suggested one solution could be that we call ResumeFromSync from CkMigratable::AtSync when no LB is created.

#2 - 08/04/2017 02:26 PM - Sam White
- Status changed from New to Implemented
